JULIUS-K9® is a European company that has been in the dog equipment business since 1997. We specialize in harnesses designed to complement all dogs—from family to sporting or working. Our custom patches allow customers to personalize each harness with names, sayings, instructions, identification features, or alerts. We have become the market leader in this category across Europe over the last two decades. In 2016, the company formed its U.S. Subsidiary in Tampa, FL. The developers try to create products that will enhance the relationship and bond between any dog and its owner, considering the smallest details that will make life easier and more enjoyable for both. The development, sourcing, production, and rigorous testing behind each product far exceed the high standards of the European Union.

Increase in Automated Email Open Rate

“Since we decided to work with Logical Position, and they took over managing our Google account, our sales have grown significantly. I also trusted them with SEO paid social and email marketing. I love to work with them—not only are they knowledgeable, but they are also responsive, proactive, and reliable. You can trust them 100%; they take a lot of pressure off me, so I can focus on other aspects of the business.”

- Andrew Herein, Owner of Julius-K9
